Floor Coatings • Cabinets • Organization

Ohio's Leader in Garage Interior Enhancement | [www.OhioGarageInteriors.com](http://www.OhioGarageInteriors.com)

# The perfect plan

Where do we begin? With your needs, wishes, ideas - and a solid understanding of organizational logic, too. Using the Ohio Garage Interiors home garage zone system, we work together to map out a plan that will simplify your day and enhance your home to fit your lifestyle.

## 1. TRANSITION

A natural place to set bags, hang jackets, or sit down to put on or take off shoes on your way in or out.

## 2. NEED IT NOW

Quick, easy access to frequently used items such as dog food, soft drinks, canned goods, recyclables or any kind of household overflow.

## 3. LONG, THIN, TALL STORAGE

An area for seasonal yard tools like shovels and clippers, just steps away from where you use them.

## 4. LARGE ITEM STORAGE

Higher elevation storage keeps large, seldom-used items such as coolers, camping gear and holiday decorations out of the way.

## 5. FREQUENTLY USED ITEMS

A grab-and-go zone for easy access to often-used items like brooms, rakes, bird food and active gear.

## 6. WORK SPACE

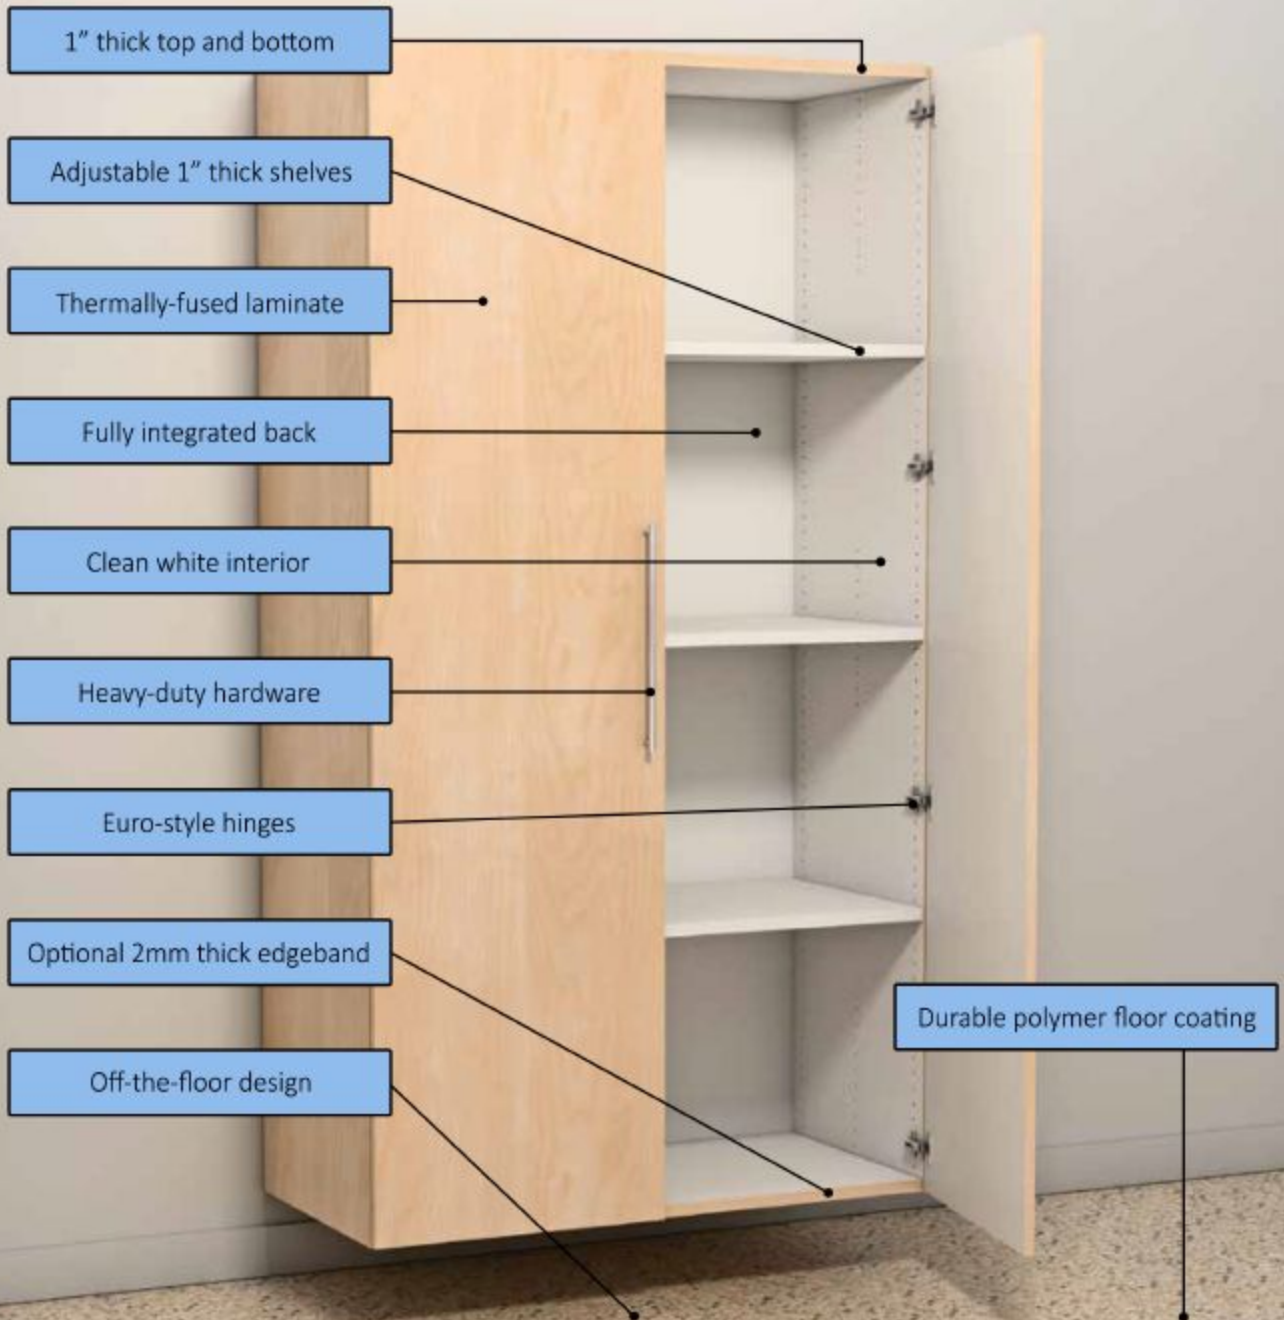

Your place to escape and focus on activities you love, complete with a spacious workspace.

## 7. DURABLE HYBRID POLYMER FLOOR COATING

High-traffic spaces demand high-performance floor coatings. A quality, stain-resistant, easy to maintain surface.

Transform your space with *Ohio Garage Interiors* cabinet and floor coating solutions. The wall-mounted cabinets make cleaning a breeze and protect against moisture and nesting of pests. Combine with a hybrid polymer floor coating that offers an attractive finish that is no match for spills or the extreme temperatures associated with the garage environment.

# It's all possible

- Almost endless options let you transform your garage into a space that accommodates your exact needs.
- Heavy-duty construction stands up to tough garage conditions.
- Doors conceal clutter to keep the room feeling clean and calm.
- Hybrid polymer coating system has a high resistance to impact, abrasion, and extreme temperature. Will not peel or blister.
- Quality floor coatings offer good slip resistance even when wet.
- Sleek European styling provides a sophisticated appearance.

Cabinets shown in Driftwood with Arctic White Interior.

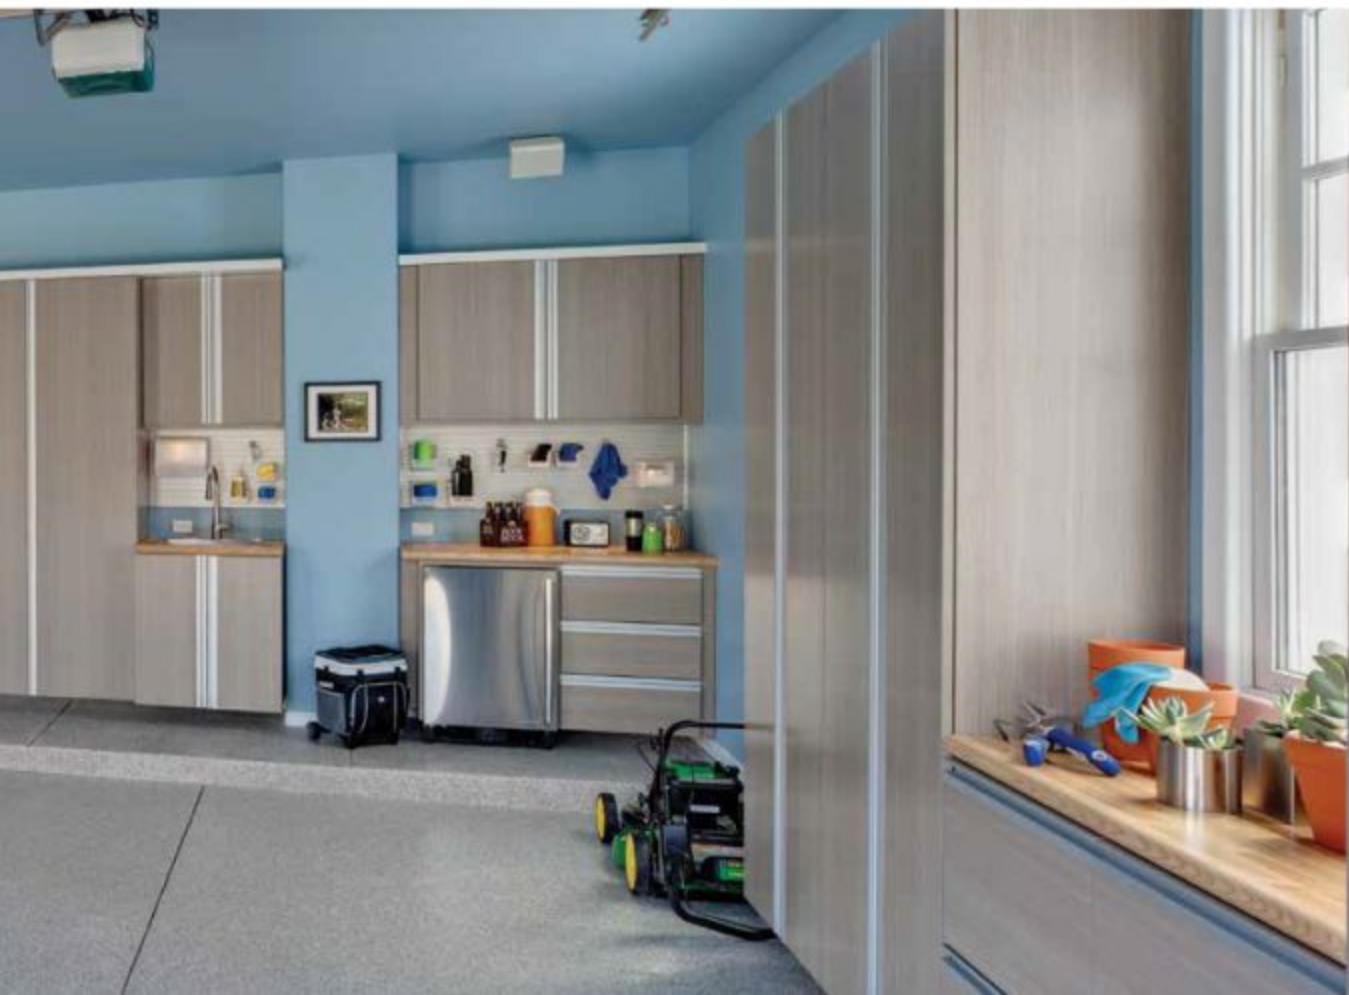

### Built-In flexibility

Heavy-duty hooks and bins go anywhere and rearrange as needed. Organize your clutter and find items when needed.

### Personalized space

Carve out a hobby or garden station with cabinets and drawers that keep all your supplies neatly contained.

### Neat Ideas

A reach-in recycling center and sports lockers with pull-out baskets keep everyday items close at hand but hidden from view.

### Practical approach

Built-in options like ventilated cabinets, garden tool racks and a utility sink are made to accommodate hard work.

### Finishing Touches

Coated pre-cast concrete steps add the finishing touch needed to complete a garage floor installation.

### Popular Combination

Oyster Vinyl Flake

Driftwood / Arctic White Cabinet

# Let the fun begin

- Sports center, party central, storage and yes, room for the car.
- High-quality finish and accents create a stylish space you're proud to share.
- Doors conceal all the clutter when it's time to play.
- Easy-to-clean floor coatings. Spray with garden hose, power washer or just sweep and mop.
- Coatings seal in concrete dust so it's not tracked into the house.
- A boot bench eases transitions in and out of the door.

## Durability is Key

Non-porous coating will not stain or allow salt water to penetrate and deteriorate the concrete.

Cabinets shown in Chateau with Arctic White Interior

### Hold everything

Take your pick of short, tall or deep cabinets, all mounted securely up and off the floor.

### Organize your gear

Jackets, coats and fishing vests hang neatly in the garage, alongside tents and tarps.

### Ready to serve

Hooks and bins on the Silver Track hold paper towels, bins, etc. Pull-out recycling bins conceal the empties.

### Stay organized

The Silver Track hooks keep bikes, helmets and other sports items within easy reach.

### Built for strength

Unlike inferior DIY epoxy that can wear through or peel, our coatings permanently bond to concrete for ultimate durability.

Shown in Copper Blaze with Arctic White Interior.

## Polish your image

- Color rich cabinet finishes add high style to your garage.
- Hanging cabinets protect from damp floors and allow easy cleaning underneath.
- Heavy duty, 1" thick shelves handle loads with ease.
- Coatings will not peel, even under hot high performance tires.
- Clear coat is UV light protected. Will not yellow or oxidize.
- Environmentally friendly. VOC compliant (volatile organic compounds)

### Neatness counts

ORGwall keeps supplies close at hand, and a built-in sink lets you wash up before entering the house.

### A comfortable fit

Extra-deep cabinets accommodate oversized items like golf clubs or coolers.

### Details matter

Dovetailed drawers extend fully on quality slides and thick 2mm edgebanding ensures durability.

### **Trophy room**

Add built-in display cases to show off mementos, awards, and keepsakes.

### **Style driven**

Stylish design with hidden stainless steel hinges. Interlocking backs with steel hardware for superior strength

Cabinets shown in Copper Blaze with Arctic White interior.

# Enhance your lifestyle

- Customization creates the ultimate high performance garage.
- Cabinets and drawers organize equipment and keep clutter out of sight.
- High-end finishes maintain consistent aesthetics indoors and out.
- No annual specialized cleaning or re-sealing necessary with coating system.
- Coatings are rated for commercial use but designed for the residence.

## Popular Combination

Fossil Vinyl Flake

Copper Blaze / Arctic White Cabinet

Cabinets shown in Platinum with Arctic White Interior.

#### Unified front

Tools and equipment of all sizes and shapes are tucked away behind doors to create a tidy look.

## Efficiency experts

- A boot bench creates a handy landing pad.
- ORGwall makes grab-and-go items easy to find.
- Wire baskets on full-extension glides keep sports gear contained.
- Tall cabinets conceal yard tools behind closed doors.
- Mechanical diamond grinding is used for surface preparation - superior to typical acid etching.
- Coatings can be applied all year. Even under freezing conditions.

#### Popular Combination

Pewter Vinyl Flake

Platinum / Arctic White Cabinet

### **A tall order**

Take full advantage of vertical space with cabinets scaled to match your garage.

### **Think bigger**

Deep cabinets with adjustable, 1" thick shelves accommodate oversized totes.

Cabinets shown in Heritage Maple with Arctic White Interior.

# Good clean living

- Elevated cabinets simplify floor cleaning
- Heavy-duty construction is engineered to last.
- Durable surfaces are easy to clean.
- Our coatings typically cure in 24-36 hours, depending on weather, getting your garage back to use quickly.
- Lifetime warranty on cabinets. Ten year warranty on coatings.
